FACEBOOK ALERT

A number of unofficial ITF tournament Facebook pages have recently been created, which has resulted in approaches being made to players by bogus representatives.

Here is an example of a personal message recently received by a player:

The people behind such unofficial pages do not work for or represent the ITF or the specific Tournament. The ITF highly recommends players do not accept Facebook invitations from them or communicate with their representatives.

If you receive a message like/similar to the one above you are requested to:

1. inform the ITF Supervisor at your tournament, AND ;
2. take a screenshot of the message and email it to the *Tennis Integrity Unit* (confidential@tennisintegrityunit.com).

Players are generally advised to be cautious about who they link or communicate with on social media forums. Official ITF links are as follows:
